*Orchid Nursery  
Thailand*

# *We are the most perfect one*

Thailand is a land of beautiful varieties of orchids in the world

and M&W Orchid Nursery

Thailand is one of the major orchid farms cultivating many kinds of pigeon

orchids in a perfectly arranged farm

orchid

covering

30 acres of land.

It is one of the top ten orchid farms in the country.

It takes 45 minutes to drive from Bangkok International Airport to M&W Orchid Nursery Thailand.

Visitors from all countries are warmly welcomed and treated to the excitement of seeing a large number of pigeon orchids nursed under modern technology.

The nursing process consists of:

- Laboratory germination
- Acceleration by shaking method
- Nursery of orchid

farm covering  
30 acres of land.  
It is one of the  
top ten orchid farms  
in the country.

It takes 45  
minutes to drive  
from Bangkok  
International  
Airport to  
M&W Orchid  
Nursery  
Thailand.

Visitors  
from all  
countries are  
warmly welcomed  
and treated to  
the excitement of  
seeing a  
large number  
of pigeon  
orchids  
nursed  
under  
modern  
technology.

The nursing process consists of:

- Laboratory germination
- Acceleration by shaking method
- Nursery of orchid saplings in glass bottle.

Visitors may purchase  
orchid saplings for their  
own growing. Orchids always  
offer viewers many  
beautiful colours and  
forms for their admiration.

Thus, orchids play a prominent role on different occasions such as:

- Paying tribute to Buddha
- Decorating residences on buildings
- Giving as laurel of congratulation or honouring someone. They are found on many occasions, such as

commemoration day, business opening ceremony, building or house opening day, and so on impressing every recipient. Fresh orchids from M&W Orchid Nursery Thailand, can be safely and rapidly transported by up-to-date system. We assure that our fresh orchids will last longer than 10 days.

A visit to view orchids at M&W Orchid Nursing Thailand will be like a visit to ten leading orchid farms at the same time.
